idylls - paperback - theocritus, anthony verity, richard hunter - oxford university press

- description
- about the author(s)

description

theocritus of syracuse (first half of the third century bc) was the inventor of 'bucolic' poetry, the principal model for virgil in the *eclogues* and the foundational figure of the western pastoral tradition. the great variety of his other poems - hymns, short narrative epics, mimes, encomia, and epigrams - illustrates the rich and flourishing poetic culture of what was a golden age for greek poetry.

- this is currently the only edition of the complete *idylls* in print.
- theocritus is a key figure in the development of western literature; he invented pastoral poetry and was the principal model for virgil in his *eclogues*, hence he is a component of classical and english literature courses.
- accessible introduction by richard hunter describes what is known of theocritus, the poetic tradition and theocritus' innovations and what is meant by 'bucolic' poetry.
- accurate and fluent translation based on the oct greek text.
- the notes summarize and contextualize each *idyll*, as well as glossing individual words and phrases.

about the author(s)

theocritus

translated by **anthony verity**, formerly headmaster of leeds grammar school and master of dulwich college, and edited by **richard hunter**, regius professor of greek, university of cambridge
